(Kim Richey - Tom Littlefield)

Oh no, here we go again
You wanna take me back to way back when
Well, I got to tell you, I gotta say, I got over yesterday
Oh, it was a long, long time ago
I cut it loose, maybe you should too, you know.

You remember the way it nver was
You've forgotten the things we didn't say
If you miss me, the reason is because you remember
the way
You remember the way it never was.

Oh yeah, you were always right
We never argued, we didn't fight
It was hearts and flowers, true romance
Why not give it one more chance.

Well, I've already been
Why would I want to got through that again?

You remember the way it never was
You've forgotten the things we didn't say
If you miss me, the reson is because you remember the
way,
You remember the way it never was.

It was a long, long time ago
I cut it loose, maybe you should too, you know.

You remember the way it never was
You've forgotten the things we didn't say
If you miss me, the reson is because you remember the
way,
You remember the way it never was.
