

Cephalic Carnage **"Driven To Insanity"**

Visit "[Driven To Insanity](#)" on MotoLyrics.com

It's sad when kids take their lives
In the act, kill 13 peers
What drives a mind to kill?

Must have been really catastrophic
To hate violently stockpile guns
Inflictin' revenge gruesomely that oblivious day

Who would foresee media spectacle
Enshroud in tragedy
Victims will beg and plead
Nation in shock, copy-cat's mock

Upscaled high school
Killing of the rich can happen anywhere
Even in your neighborhood
Children are snapping

Peach through annihilation
It kind of sucks
Innocent people died
What made this happen

Condolence to the bereaved
Deranged adolescents
Or victims as well
Society could learn from this

Listen to your kids
Two die brains go splat
