Der Ohrwurm ist unaufhaltsam (The ear worm is inexorable)

Es gibt keine Heilung (There is no healing)

Psychic nosebleed zen

Hijacked auditory control

Meme lodging worms infest

A mind virus taking hold

Rife with barbed hooks and trite melodies

Chiclete De Ouvido

Loops on repeat, regurgitated

Dry heaving chunks of aural bile

Can't get this out, of my head

Make it stop

Boring deeper into the folds

An unrelenting onslaught of sound

Endomusia encapsulated

Paralyzed mind debilitation

Porous susceptibility

Counting down to insanity

Those who can't bear it seek refuge in pain

Solutions developed in states of dementia

Hardening callouses ripen the aim

Peeling the skin back and grinding away

Icepicks swing side to side

Shredding grey matter into pulp

Eye socket paradise

Ataractic reprieve

Orbitoclast forbearance

Deleted quintessence

Stuck in the present tense

Permanent moratorium

Can't get this out

Of my head

Make it stop

Conceding to torment

Exhaustion overbears me

Solutions developed in the states of despair

Hardening callouses ripen the aim

Peeling the skin back and grinding away

Cold Emilio's trees

Earworms released in vain

Sailing into desolation

Solace from the torturous worm
Cocked-back hammer squeeze the trigger
Nothing soothes like a bullet
Get this song out of my head
