In 1982 a new way
Of spying was conceived
Using psychic warfare
They view the enemy
Divulging information as they pleased
From a new technique called
Scientific remote viewing
Astral projection was achieved
Tapping into ESP.
Seeing things the mind should never see
Broken down into a basic protocol
A special form of meditation
To be used by you and me someday
Fate
Strange what they uncovered
A research team discovered
This gift of sight
Viewing UFOs, Jesus Christ, pyramids on mars.
Luminous spears fly from star to star
Sub-space beings
The Lucifer rebellion
The future of man
The galactic federation.
Cattle mutilation
Human abduction
Martians and grays
Living here amongst
Who would believe them?
If they told you what they saw?
Would you believe?
Or think they belong in a mental home?
Believe.
