Sealed in a plague never meant to save, it's all so  
vague,  
Channeled inner rage, enigmatic hate, this was our  
fate,  
Suffer everything turns to shit, decomposed everything  
deteriorates,  
Cataclysmic fate, mother nature repudiates all human  
beings.  
Sodomize the earth and punish me for our birth.  
Exist in your womb, and I'll resist you, organized  
religion.  
The ATF, the DEA., the FBI, the CIA, they're all out to get  
me.  
I have gone beyond your lies, to campaign my wage of  
pacifism.  
Throughout the centuries ignorance controls the weak,  
Trying to define our lives, the hope we try to reach,  
suffering agendas,  
Racial tensions high, massacre the trees is gonna  
make us die.  
See the eyes of a child person trying to live;  
Our resources going dry we'll have nothing more to  
give.  
Breaking down the barriers together we are strong,  
Mother nature mends herself and we will bond  
amongst,  
Hand in hand in harmony, to our special place.  
Regurgitate our destiny to kill the human race.  
Fuck yeah.  
Deep in the rain forest is a tropical disease  
passed down to natives chopping down trees.  
Sealed in a plague never meant to save, feeling inner  
rage,  
from inside tormented dreams, like a force.  
Waiting for the millennium a time of fear, to take the  
lives we hold dear
