Verse 1:

When heaven opens, over me, I'm saturated in love,  
Dancing deeper in creativity, nothing impossible for  
me.

Stirring passion, dreams awakened,  
Heaven opened, is what I long to see!

Pre-chorus:

It's the promise I was made for, born for,  
To see heaven open up on earth.  
It's everything I'd fight for, I'd die for,  
To see heaven invade this earth!

Chorus:

Open up heaven!  
We will party with the angels.  
There is nothin' better,  
We're ready for encounters with You.

Verse 2:

Reformation, Transformation, Revolution,  
It's our destiny.  
A generation, designed to worship,  
We have Jesus and his presence is all we need.

Bridge:

I live for Your presence,  
You are life to my heart.  
I live for Your presence,  
From Your love I will never part.
