This I swear
This I swear

Each and every way I can, I will prove to you
I got a fortune in my hands when I'm holding you
Never wanna let you go again and that's the truth
I will try and answer all your prayers

This I swear
This I swear

There's always a danger
There's always a fear
Love's not gonna make it out of here

I'm not asking for perfection
Just want a love that's true
And in return I'll do my best for you

It seems the higher we climb
The further we fall together
But right here, I'll vow
Baby, I promise you now

Each and every way I can, I will prove to you
I've got a fortune in my hands when I'm holding you
Never wanna let you go again and that's the truth
I will try and answer all your prayers

This I swear
This I swear

We each have our moments
Our times of doubt
But I know deep down
Don't wanna live without you

You're the exception to the rule
'Cause where love's concerned
I guess I've been a fool

I know it's a long, long road

But as long as we stand together
Right here, I'll vow
Baby, I promise you now

Each and every way I can, I will prove to you
I've got a fortune in my hands when I'm holding you
Never wanna let you go again and that's the truth
I will try and answer all your prayers

This I swear

Each and every way I can, I will prove to you
I've got a fortune in my hands when I'm holding you
Never wanna let you go again and that's the truth
I will try and answer all your prayers

This I swear
This I swear

Never wanna let you go again and that's the truth
I will try and answer all your prayers

This I swear
This I swear

This I swear
This I swear

This I swear
