once upon a time
a girl that used to hide inside
comic books and make believe
took a ride
it hasn't been the same
since lightning struck that plane
now she's become
Olivia Oblivion

every day's a little more insane
now it's her turn
when you're in the superhero game
see her crash and burn
superpower takes it's toll
eventually you lose control

she leaps the cars and climbs the walls
whenever the defenseless calls
she can always find them
with her X-ray eyes
the darker days she fights the light
and steals a kiss into the night
hope you're having fun
Olivia Oblivion

every day's a little more insane
now it's her turn
when you're in the superhero game
see her crash and burn
superpower takes it's toll
eventually you lose control

go and simply ask her why she calls herself Oblivion
and she'll tell you that's the only lonely place she's
never been
and so she fights a world that's closing in

every day's a little more insane
now it's her turn
when you're in the superhero game
see her crash and burn

superpower takes it's toll
eventually you lose control

crash and burn (every day)
crash and burn (every day)
crash and burn
Olivia Oblivion
