Starlight shining over me  
It's always there  
Starlight over me  
You can look, but do you see?

Starlight misconceiving me  
It's never clear  
Starlight covers me  
Showing you someone I'll never be

In this lie it is also dark  
Nothing's what it seems  
And I hear you  
And I feel you  
I cannot breath in here

Starlight suddenly  
I cannot breath in here  
Starlight training me (You're training me)  
??

In this lie it is also dark  
Nothing's what it seems  
And I hear you  
And I feel you  
I cannot breath in here

Darkness is comforting to me  
It's grown so clear  
(In here...)  
Starlight just let me be  
Tired the way to set me free

Right now everything is wrong  
In this starlight
