(english translation)

if you want to walk on this earth  
don't talk  
take your time  
let your eyes get used to the light

if you want to walk on this earth  
don't speak  
take your time  
let your eyes get used to the light

come slowly  
come slowly  
come slowly  
towards me

if you want to walk on this earth  
don't talk  
take your time  
in your work shoes  
follow the same path as before

come slowly  
come slowly  
come slowly

place your head on my knee  
your skin on mine  
your hair like the crow  
black as a crow that knows no end

place your head on my knee  
your skin on mine  
your skin in my hair  
black as a crow that knows no end

place your head on my knee  
your skin on mine  
your hair like the crow  
black as a crow that knows no end
