I know it's been a long long journey  
I know you're tired from your trip  
I can see your pace is slowin' down  
An' I can feel you're losin' your grip  
I know it must seem like a million miles  
But you'll never be all alone  
I'll be with you ev'ry step  
So John please take us on home  
Take us on home John  
Take us on home  
Take us on home  
Where we can rest our weary bones  
We know at the end of this journey  
Another one'll soon begin  
We know it's a constant struggle  
The game of life is hard to win  
Maybe someday when it's better  
We'll set our hearts at ease from now on  
But now all we got is each other  
So John please take us on home  
Take us on home John  
Take us on home  
Take us on home  
Where we can rest our weary bones  
Maybe when the struggle is over  
We'll have a brand new life  
You'll be a golden chariot  
And I'll have wings to fly  
We'll sail away over golden streets  
If there's such a thing goin' on  
But we ain't made it to Heaven yet  
So John please take us on home  
Take us on home John  
Take us on home  
Take us on home  
Where we never more will roam...
