"Heart And Mind"

I write you letters from right to left
See if you have desire yet
To decipher what I said
And learn secrets from my head

It was hard for me to say
Those three words that are so brave
Almost kept them locked away
Deep inside where they'd be safe

BRIDGE:
Always trying to find
A safer place to hide

CHORUS:
Always felt I was protecting my...
Heart and mind
Heart and mind
But it seems like to really feel alive
I cannot hide
My heart and mind

I don't know why I get shy
Tucked away inside my mind
Scared to let someone inside
I sit silent in disguise

BRIDGE

CHORUS
