"Mannequins"

Lie a little closer to me
'Cause tonight seems we fit perfectly
And I try to really take time to see
All the tiny points and lines that paint this scene

Take this in one more time
'Cause it won't last forever

CHORUS:
Wait just a moment
Stay still as mannequins
Make sure every memory is saved
Stay still before it goes away

Say there's more here to believe
'Cause you know is what I'm thinking I really need
And goodbye doesn't really look good on me
Hope the last time that we part is easy

See the life leave your eye
It's lost and gone forever

CHORUS

I'm risking all
We know for sure
When you fall out
It's gonna hurt

CHORUS
