One time I dreamt an unknown land
With jungle trees and the blackest sand
Had taken us as prisoners in the night
Upon it's shore, we could not sleep
Instead, we stayed awake to keep
Our minds off things like monsters and the like

So hour by hour, we passed the time
We watched a motion picture in the sky
You were the clouds and I was the moon

CHORUS:

You and me together, together, together
You and me together, together, together
Together is all we need
Bada ba bum
Bada dum
Bada ba daba
Ba daba

Then waves came crashing down on me
And they tried to take me out to sea
You fought them off so gallantly and won
Then back again upon our shore
We really wanted nothing more
Than to hold each other 'til our arms grew tired

Then slowly like a timid flower
The sun rose up at just the hour
When we had slowly slipped out of my dream

CHORUS

You and me together, together, together
You and me together, together, together
Together is all we need

Oh, bada bum
Bada ba bum
Bada ba bum bum
