Now if you wanna meet girls and I know a little place
It's a zingy neighborhood and it's open everyday
Afraid to get in and never got away
You should see this girl that I pulled yesterday

At the Walmart,Club Walmart, I met her at the grocery
store
At the Walmart,Club Walmart, every second baby girls
go alone X 2

If you call her, you get to know her,
I'll be scared too, got met at the folgers
At the Target Saturday Margaret,Italian Stallion, I met
her at the car lick
She was jocking hard, I went to my shopping cart,
it's the Walmart shopping for the hallmark
... in the jar medicine,
... I ever been, everybody's knowing me
Think I see my ace girl, I don't give a damn though,
She could be my next girl, ... her ebt, you can still be
with me
...

Now if you wanna meet girls and I know a little place
It's a zingy neighborhood and it's open everyday
Afraid to get in and never got away
You should see this girl that I pulled yesterday

At the Walmart,Club Walmart, I met her at the grocery
store
At the Walmart,Club Walmart, every second baby girls
go alone X 2

In place filled with college girls, we gonna change the
name
Club wiley worm, 24 hours,
7 days a week, no charge, they don't even check for ID
They smile and say my name,
soon as I enter , they look at my chain and say I'm a big
spiller
... pocket full of cake.. , I'm in great place, the prices

roving
I met a bad chick just last year, hey what do you know?
She's my cashier she had a pretty smile, everybody
perfect
She did a great job, good customer service

Now if you wanna meet girls and I know a little place
It's a zingy neighborhood and it's open everyday
Its free to get in and never gotta pay
You should see this girl that I pulled yesterday

At the Walmart,Club Walmart, I met her at the grocery
store
At the Walmart,Club Walmart, every second baby girls
go alone X 2

I know, I know what you're thinkin right, wrong one, you
know that
But like if you go there like on a Sunday or Saturday
man like, you see what we're talking about though you
know what im sayin?
Now every time I hit the store I see somebody that I
know
Start pointing start whispering as soon as I hit the door
... yeah they know who I am
I'm gonna get the store deposit from the ... money
grand
Hello, how you doing man? Excuse me miss, I gotta tell
you this
you a six star chick, who you in as I've been with I think I
like it ...
Nice purse, nice kicks , baby shine on your lips,
would you wanna stop and give
... girl what I say
... cause she wanna parle ...

Now if you wanna meet girls and I know a little place
It's a zingy neighborhood and it's open everyday
Its free to get in and never got pay
You should see this girl that I pulled yesterday

At the Walmart,Club Walmart, I met her at the grocery
store
At the Walmart,Club Walmart, every second baby girls
go alone.
