Woo
It aint nothing but a sham
Trying hard to be a man
Put your knickers on
Play your favourite song
Exhibition to the full
Life has never been so dull
Put your knickers on
Youre turning me on, you're turning me on
Feels like my depression is eternally gone
Glamour holds no solitude
Life has never been so rude
Play my favourite song
Youre turning me on, you're turning me on
Feels like my depression is eternally gone
Can you adore what I can't keep?
Are you as strong as you are weak?
Can you adore what I can't keep?
Are you as strong as you are weak?
Yeah yeah yeah
I got the buzz and I like it
I got the buzz and I like it
Feels like my depression is eternally gone
Eternally gone and I like it
Eternally gone and I like it
Feels like my depression is eternally gone
Eternally gone
Eternally gone
Eternally gone
