When there's no one left but you  
And there's no one left to fool  
And there's nothing left to lose  
And there's nowhere left to hide  
Yeah there's nowhere left to hide  
You're the bane of all our lives  
We are lost inside of our lust  
I needed, don't ever fall in love with me  
I must be empty  
Tonight I'm gonna hurt her for leaving  
Don't ever fall in love with me  
When there's nothing left to do  
And there's nothing left to prove  
And there's nothing left to do  
When there's nothing left to hide  
And all that's good has died  
You're the bane of all our lives  
We are lost inside of our lust  
I needed, don't ever fall in love with me  
I must be empty  
Tonight I'm gonna hurt her for leaving  
Don't ever fall in love with me  
Lust, I needed, don't ever fall in love with me  
I must be empty  
Tonight I'm gonna hurt her for leaving  
Don't ever fall in love with me  
With me  
With me  
With me
