"Kiss Me Back"

There were times; we were on top of the world,
It was nice, knowing that I was your girl,
But things can change; I wish it wasn't true,
It feels so strange to see her next to you!

Corus:

I don't want to cry, tonight,
I just want to hold you, baby,
I'm about to lose a fight; there is no one else to save
me,
Can you hear me?
Boy I can't go on without you by my side,
So kiss me back tonight! (So kiss me back tonight)

Tell me why, why do you want us to end?
Can we try; try to start over again,
We have it all too much to throw away,
Don't let me fall; I'm begging you to stay!

Corus:

I don't want to cry, tonight,
I just want to hold you, baby,
I'm about to lose a fight; there is no one else to save
me,
Can you hear me?
Boy I can't go on without you by my side,
So kiss me back tonight! (So kiss me back tonight)

So kiss me back tonight! (X3)
