There i was waiting for a chance  
hoping that u'll understand  
the things i wanna say

As my love  
is stronger than before  
i wanna see u more and more  
but you close the door

Why don't u try  
to open up your heart  
i won't take so much of your time.....

Maybe it's wrong to say please love me too  
coz i know u never do  
somebody else is waitin' there inside for you....  
maybe its wrong to love you more each day

coz i know she's here to stay....  
but i know to whom you should belong....

I believe what u said to me  
we should set each other free  
that's how u want it to be....

repeat II then chorus....

coda:  
but my love is strong  
i don't know if this is wrong  
but i know to whom you should belong.....
