Feel me i'm numb
Put your skinny arms around me
Steal me while i'm young
And vulnerable
Take it slow
Let the music find you
Have a go
Go and lose it one last time
Really, i've become a great escape for your children
Steal me while i'm young
So vulnerable
Take it slow
Let the music find you
Have a go
Go and lose it one more time
All rise
Tonight begins the best days of our lives
Let me go
Don't wait up
We're never coming home
Don't wait up
We're never coming home
Take it slow
The music find's you
Have a go
Go and lose it one more time
All rise
Tonight begins the best days of our lives
Rise
Tonight don't wait up
We won't be back alive
Let me go
Don't wait up
We're never coming home
Let me go
Don't wait up we're never coming home
Let me go
Don't wait up we're never coming home
