Take your eyes off mine
Boy don't you talk
Your way out
Of this one
Shake the skys allure
Boy don't you walk
Your way out
Of this one

And this is what we came for
And this is what we'll die for

She's always aftertime
She's always aftertime
She's always aftertime
She's always aftertime
She's always after

Take my love demure
Boy don't you walk your way
Out of this one

And this is what we came for
And this is what we'll die for

She's always aftertime
She's always aftertime
She's always aftertime
She's always aftertime
She's always after

She's always aftertime
She's always aftertime
She's always aftertime
She's always afterime
She's always
