Come, I'm begging you down on me  
Young, (when you cum)  
dragging me down to heavy  
I like you better when you cum  
I like you better when you cum  
we went to bed with everyone and everybody  
just to feel somebody  
Scum, you're pulling me down my love  
young, (when you cum)  
dragging me down to heavy  
I like you better when you cum  
I like you better when you cum  
we went to bed with everyone and everybody  
just to feel somebody  
Everybody stroke your gun  
livin like a useless sex starved junkie  
if everybody's useless scum  
and livin when you're sad is worse than dying  
I like you better when you cum  
I like you better when you cum  
we went to bed with everyone and everybody  
just to feel somebody  
one and everybody  
just to feel somebody
