Hate me baby, I been so unkind she said
So lets make love just one more time
YouÂ're making me warm when itÂ's cold outside
I hate rock n roll, like it hates me
I hate rock n roll, come on

Shine a light on me, come on, come on
Shine a light on me, come on, come on
Shine a light on me
Everybody knows, sunlight is cold

Shake me baby, I been all uptight
I said so lets make love just one more time
YouÂ're making me warm when its cold outside
I killed rock n roll, like it killed me
I killed rock n roll, come on

Shine a light on me, come on, come on
Shine a light on me, come on, come on
Shine a light on me everybody goes

We could be so happy if youÂ'd let me out
Just to let me in
I couldnÂ't feel this happy if you cared
Whoah, yeah

Shine a light on me, come on, come on
Shine a light on me, come on, come on
Shine a light on me, everybody knows
Sunlight is cold
