I've been told the more I love you
The more it makes me cold, so cold
Make me feel like someone she'd like
Love myself cos' no-one else does
You've got an ego
I wanna be labotomised Everytime she's..
Oh what an ego, The beat off gets me every single time
Smile for...The less it hurts me
The more it makes me sure, so sure
Where's the game in our place
Love myself cos' no-one else does
You've got an ego
I wanna be labotomised Everytime she's..
Oh, what an ego, The beat off gets me every single
time
Every single... Oh what an ego
Libido gets me and never lets me go
Oh what an ego
Every single time
