Possesion turns me mad
I want what I can't have
But still I get relief

Frustrated, undermined
Come save me valentine
You never had the time

Youuu didnt leave me baby
Youuu are needed baby
When your on fire
And I'm on fire

(?) miss me when your gone
You wrestle and you writh
On fire
When your on fire

And let her, and let her, and let her and let her go
Let her waste in legacy
And let her, and let her, and let her and let her go
Let her waste in legacy

Yoouu couldn't leave me baby
You are needed baby
When I'm on fire
And your on fire

(?) miss me when your gone
You wrestle and you writh
On fire
Your on fire
Your on fire
