Take your eyes from mine
Boy don't you talk
Your way out
Of this one
Shake the sky's allure
Boy don't you walk
Your way out
Of this one

And this is what we came for
And this is what we died for
She's always aftertime

She's always aftertime
She's always aftertime
She's always aftertime
She's always aftertime

Take my love demure
Boy don't you walk
Your way out
Of this one

And this is what we came for
And this is what we died for

She's always aftertime
She's always aftertime
She's always afterime
She's always after

She's always aftertime
She's always aftertime
She's always aftertime
She's always after
