You broke your promise, baby  
You don't love, honor or obey  
You won't do nothing i tell you  
You go on mistreating me everyday  
You're hardly acting your part, baby  
You won't do nothing the preacher says

You don't love me, baby  
You don't even wish me well  
Honor's just a joke with you, baby  
You don't love me, i can tell  
Married life with you, baby  
I'd rather be living in a cell

You deceive me, baby  
You use me like a child  
You tricked me into loving you, baby  
I was loving you all the while  
You played with my heart, baby  
I said i was loving you all the while
