My woman's been accusing me  
Of stepping out  
Jealous rumors have her mind filled  
With so much doubt  
And i've gotta convince her  
I'm not doing her wrong  
Before she leaves me  
Sad and all alone

So when the clock hits five  
I'll be gone  
There's a matter  
That i'm gonna settle later on  
So if the boss man talks  
About overtime  
I'm just gonna smile  
And pay him no mind

I've got business with my baby tonight  
We're gonna talk things over  
And make things right  
'cause i couldn't sleep at all  
Since we had our fight  
I've got business with my baby tonight

We'll go out to dinner  
At our favorite restaurant  
I'll hold her hand  
And tell her she's all i'll ever want  
When we get home  
I'll take her straight to paradise  
And we'll still be loving  
Till the morning light

I've got business with my baby tonight  
We're gonna talk things over  
And make things right  
'cause i couldn't sleep at all  
Since we had our fight  
I've got business with my baby tonight

Now don't you start talking  
About gossip or news  
I'm warning you now  
I'll put on my walking shoes  
'cause to me nothing in this world  
Is a big deal  
When it's compared to the way  
She makes me feel, all right

I've got business with my baby tonight  
We're gonna talk things over  
And make things right  
'cause i couldn't sleep at all  
Since we had our fight  
I've got business with my baby tonight

B.b.'s got business tonight  
We're gotta talk things over  
And make things right  
'cause i couldn't sleep at all  
Since we had our fight  
I've got business with my baby tonight
