Come by here, baby, come by here
Come by here, baby, come by here
Come by here, baby, come by here
Oh baby, won't you come by here

I love you baby, come by here
I love you baby, come by here
I love you baby, come by here
Oh baby, won't you come by here

I want you baby, come by here
I want you baby, come by here
I want you baby, come by here
Oh baby, won't you come by here

We'll get married, come by here
We'll get married, come by here
We'll get married, come by here
Oh baby, won't you come by here

Come by here good-looking, come by here
I need you, come by here
Come by here good-looking, come by here
Oh baby, won't you come by here
