You make lots of money
selling sex to survive
thinking you are a big shot
you don't care if they are children
you don't care if they are boys
so I'm gonna stop you in the spot!

Not in Jamaica... fuck drug dealers
Not in America... fuck sex dealers
si no te gusta, mira salta en tu silla
don't drop your pants and jump!

Jump... jump... jump...

You looking on the streets
like if it was a shopping mall
don't take more innocent minds
you don't care about religion
you don't care about the law
but I'm gonna take you with my gun!

Not in Brazil... fuck drug dealers
in sur America... fuck sex dealers
si no te gusta, mira salta en tu silla
don't drop your pants and jump!

Jump... jump... jump...

Mi pobre gente quiere llorar...
rich freaks with lots of money,
for a sexual dish a little poor kid they want to have
from a far off country where even the police are easy
to buy!

Me no want to create no war
me no want to hate anyone
me no want to create a revolution
all me want is a big solution!!!

You are always on the run
living like this is not fun

don't get new people into your crap
you don't care if it's your cousin
you don't care if it's your son
your fucking business sucks!!!

Not in Italia... fuck drug dealers
In Santo Domingo... fuck sex dealers
si no te gusta, mira salta en tu silla
don't drop your pants and jump!

If we all get together
and then we fight them like one
the next generation will be fine
asi que en la esquina te vamos a esperar
and we gonna erase your fucking ass!!!

Not in Japan... fuck drug dealers
In Vietnam... fuck sex dealers
si no te gusta, mira salta en tu silla
si no te gusta anda y jump!
