This magic winter night i see a light  
Again i hear that tune, some sort of croon  
Oh no no no, oh my brain

I see them gypsy waggons left in the  
Snow  
Oh i must see that lady, i have to know

Gypsy woman let me inside

Solo: m.d.

They say you know the secret, secret of  
Time  
So gaze into your crystal and tell me all  
You see  
Gypsy woman let me know

"oh my son you were never gone  
You are the devil's child, and so am i"

Solo: m.d. solo: h.s.

Gypsy now i know you're not my mother  
You are a part of my soul, it's clear for all  
To see  
Oh no no no, i am you  
Gypsy you're inside of me
