Oh i need you baby
Yes i need you baby
Oh i need you baby
Come on back home to me
I'll make it all up to you, woman
Just you wait around and see

I was wrong baby
I thought i was having fun
I know i was wrong baby
I thought i was having fun
Yes i was young and foolish
I didn't know you was the one

Now i've settled down baby
And i know i'll treat you right
Oh i've settled down baby
And i know i'll treat you right
Yes, come on home now baby
I want you to come on home tonight

Oh i need you baby
Yes i need you baby
Well i need you woman
I need a good woman around
Every night about this time baby
My love comes tumbling down
