Yeah, i stay in the mood for you  
'cos i just can't help myself  
Yeah, i stay in the mood for you  
'cos i just can't help myself  
You've always fooling around  
Givin' my love to somebody else

Still i stay in the mood for you  
And i can see you everywhere i go  
Still i stay in the mood for you  
And i can see you everywhere i go  
Well, if something soon don't happen  
My heart is gonna break i know

Well, you said that you love me  
You've sworn that you'll be true  
But now you're tellin' stronger  
That i'm just a fool you know  
But i stay in the mood for you  
'cos i just can't help myself  
Please come back to me baby  
'cos i'm tired of livin' by myself
