It's a great, great pleasure, a great, great, great, big
thrill

It's a great, great pleasure, a great, great, great, big
thrill

When you got your baby and a whole lotta time to kill
Did you ever get a feelin' that your feet had turned to
stones

Do you ever get a feelin' that your feet had turned to
stones

Do you get a funny feelin' running up and down your
bones

That's arthritis

It's a great, great pleasure, a great, great, great, big
thrill

It's a great, great pleasure, a great, great, great, big
thrill

When you got your baby and a whole lotta time to kill
Did you ever feel lucky and wake up cold in hand
Did you ever feel lucky and wake up cold in hand
Find you ain't got a nickel and your woman got another
man

Bad deal
