Sex sleep eat drink dream

Primal, tribal, apple, egg, vegetable, eel
I have a new canoe but it does not have a wheel

Sex sleep eat drink dream
Sex sleep eat drink dream

Private velvet animal, Oldsmobile mind
I'm sitting in the fireplace burning up my time

Sex sleep eat drink dream, oh

Sex sleep eat drink dream
Sex sleep eat drink dream
Sex sleep eat drink dream

Private velvet animal, empty TV
They're fishing in the kitchen but they haven't caught
up to me

Primal tribal chemical, digital night
I've got to get dressed to go out of my mind

Sex sleep eat drink dream
