She is susceptible, he is impossible  
They have their cross to share  
Three of a perfect pair

He has his contradicting views  
She has her cyclothymic moods  
They make a study in despair  
Three of a perfect pair

One, one too many schizophrenic tendencies  
Keeps it complicated, keeps it aggravated  
Full of this hopelessness oh what a perfect mess

He has his contradicting views  
She has her cyclothymic moods  
They make a study in despair  
Three of a perfect pair

One, one too many schizophrenic tendencies  
Keeps it complicated, keeps it aggravated  
Full of this hopelessness oh what a perfect mess

One, one too many schizophrenic tendencies  
Keeps it complicated, keeps it aggravated  
Full of this hopelessness oh what a perfect mess

One, one too many schizophrenic tendencies  
Keeps it complicated, keeps it aggravated  
Full of this hopelessness oh what a perfect mess
