Ghidra has arrived, you guys could take five
By the time it's over, no snakes alive
Take the dive, I'm tellin' you, you better off
Then up against a flow to make her, take her sweater
off

From the set off when it came to scripts he could hardly
brag
It's the result of concentration and lolly-gag
I said, "Yeah right" he pulled the mic out a snotty rag
Sealed up air-tight and wrapped up in a body bag

Get a advance and catch chance writer's block
After spendin' the first and last penny
My own worst enemy tell me if I'm OD and usual flow
And made deals with these cats who keep sending
dough, so

The Three Headed said it, never get busted
He's a man of his word who's not to be trusted
Beats encrypted, multi-faceted encrusted
Shorty pawn, keep mic rusted

Sort of mellow type of fellow
Who sometimes spaz on wife like Othello
Hell no he won't use words like illuminati
Or Gotti all shotty might use karate

Azar the Gaza cut I'll ask why a mask
With the gall style caps say nice fly
Exact dough till it stack high, white ho, black
Guy the rap game, black eye

Exhilaration, Jet Jag's accelerations
Touch speeds minds can't concieve
Achieve altered, attitudes and angles, angels answer
Aura, illumilation, awesome interperation

Awkward alarm, ankle house arrest and who's best?
Monster Island Czars crush pawn dreams to be king
A frank reality calculation could never be
Quest destined, distant competition dusted

Disgusted raise for second, crowded
Clouded confusion, conclusion simple, plain
Self education, self made millionaires
Serpents slitherin', sidewind searchin'

Stalkin', heat sensin' can't have me Jet Jag's riki tiki tavi
Superhero hit zero to sixty hot pursuit, pedal to the
floor
Handlin' lyrics, traction swervin' left right makin' head
fix
Layin' high stakes levitates, quick hit breaks
They fly past hit war parts fly loose, kill a mongoose

Fake niggaz continue to practice the art of intimidation
Sterile minds conceive and throw up all artificial
insemination
Syntax a sequential rage unless it's all deliberate
Angle wide words clear, but population stay illiterate

Consider it God's a fine power, fools get rid of it
Men build dreams on promises but lacken' the will to
deliver it
You, I dissolve connivers like saliva on tic tacs
World is strange, but get the job done like sises mix
max

Flip tracks, murder stinks, drunk niggaz killin' six packs
Chokin' on venom, suffered tricknological kick backs
Poverty stricken' minds, all thoughts barely worth two
cents
Build history through time, many a design on
blueprints

Anooshes slides in the sky, eight-five percent never
knew
Wise men arise, pull files like internal revenue
Forever true, appauled? There's self evidence with
leverage
Upset? The beast belly concoct

Homogenised beverage
Clever shit, calculate a sabatoge trojan horse
Gift from? See through any G motion that grows in
force
Chose to toss to teach familiar line throughout the
underworld

God of elevation kills Superman, rape Wondergirl
The discounted, decapitated rapist it's acceptable
The everyday occurrence a fatal outcome's inevitable

Might as well join the forces boss
Chance take a loss like coin toss
Roll with the double headed nickel
Pawn the pawn a Jet Jag with the sickle you and a pickle

King Ghidra yo you ass betta leave 'em alone
Before ya go catch a seizure and leave 'em blown
If you ain't the best of the best in the top three

Either myself, I and me don't even think of caps
But act like you had a slight inkling perhaps
Or get smacked back in the ring like Bob Backlund
Ink jet black and wack

Ha ha ha hey, what's the meaning of this?
Shut up ha ha ha, young man
