### "Second Time Around"

Visit "[Second Time Around](#)" on [MotoLyrics.com](https://MotoLyrics.com)

The bar was dark that night  
But through the smoke filtered light  
I saw the tears in your eyes  
You knew our love was on the line  
It was the second time  
That this fool believed your lies

You'll never change  
You had a good thing girl but  
You threw it all away

What are you looking for  
When you're walking out that door  
I hope it can be found  
Maybe you'll find love the second time around

Our love was my mistake  
I knew that it would take  
So much more than i could give  
I hope we can be friends  
'Cause i know that in the end  
It's how you and i were meant to live

But i hope you change  
So when you find a good thing girl  
You won't throw it all away

What are you looking for  
When you're walking out that door  
I hope it can be found  
Maybe you'll find love the second time around
