Daydream delusion... limousine eyelash... Oh, baby with
your blue eyes crying... drop a tear in my wine glass...
I'm out of my head... that's what everyone thinks...
Such a pretty face... just look at what you mean to me...
or think you do...
It's a general rule... you're not allowed to be upset...

Cause it brings everyone around you down...
Sweetcakes and milkshakes... I'm a delusioned angel...
I'm a fantasy parade...
But I can't go on pretending to be high...
Sweetcakes and milkshakes... I'm a delusioned angel...
and I'm here today...

But you know what they say...
Higher than life... I could "kiss the sky"... or so he said...

Kiss my mouth... does it taste the same... or should I be
dead?
I want you to know what I think... don't want to answer
questions anymore...
Is that all this is? am I waiting? what am I waiting for?
You don't know where I came from... you don't know
where I'm gone...

Latched in life like branches in the river...
"You've got no right to be unhappy"...
Flowing downstream... caught in the current...
Why not I reply? aren't I the same as anyone?
I'll carry you... will you carry me... that's how it could
be...
Give me the right... to use my life for what I like...
Don't you know me... don't you know me... don't you
know me by now...
So maybe I can get that high again...
Sweetcakes and milkshakes... I'm a delusioned angel...
I'm a fantasy parade...
Oh, I've got to make my life... more than what I think it
should be...
Sweetcakes and milkshakes... I'm a delusioned angel...
and I'm here today...
Oh, I've got to make my life... mine...

But you know what they say... here today... gone
tomorrow...

I've got something to say...
Higher than life... I could "kiss the sky"... or so he said...

Kiss my mouth... does it taste the same... or should I be
dead?

Sweetcakes and milkshakes... you've been delusioned
baby in this fantasy that you've made...

Is that all this is? am I waiting? what am I waiting for?

Sweetcakes and milkshakes... you've been amusing
baby... and I thought that I might stay... but it's like I
always say...

Here today... gone tomorrow...

Why am I waiting for ...

There's angels out there everywhere but times have
changed...

You to care...you to love...you to lose...you to wash my
blood...

So be careful who you choose to love... cause angels
are only here for today...

Wash my face...clear my eyes...so I can see through
this....

Gone tomorrow...

Through you...through me...through every Goddamn
thing...

Through every Goddamn thing....
