Visit "[Shapes To Clouds](#)" on MotoLyrics.com

Powder up the keg! A sea of flame lies all around!
Dry the tears you've fed! the sunset looks like a
circus clown!
The sunset stares!

The shapes turn into clouds! the shapes turn into
clouds!

Fear alone can save me now! Fear alone can save
me now! Fear alone can save me now!

Who needs water when we have wine?.....we have the
lightening to keep us safe!
The end of the world is too slow! we need something
to scare! something to scare us again!

The shapes turn into clouds! the shapes turn into
clouds!

Fear alone can save me now! Fear alone can save me
now! Fear alone can save me now! Fear alone can
save me now!
