When I smell your hair I lose all control you give me my
soul

If I could see you smile or look in those eyes how'd I
become the guy to sweep you of your feet

Its easy wasting my time on you

I can't get anything done cause I'm always with you.
You know it's true

Whenever your away My feelings just grow. I want to
get so low that I could kiss your feet

Its easy wasting my time on you. it's easy...Its easy

So now you've already won. There's nothing I can do.
'Cept waste my time on you so I'll accept this feat.

Its easy wasting my time on you. it's easy...Its easy
