Yeah baby, you lookin lovely, very lovely  
You know your man should appreciate you the way that  
I do  
And my girl, she should appreciate me the way that you  
do, baby  
But they have yet to understand one thing:

[ VERSE 1: King Sun ]

You are truly my undercover lover  
Sharing a secret life so undiscovered  
I sneak to meet such a girl so sweet  
As we make love between satin sheets  
The time we spend as nothing more than friends  
You see me with my girl, I wink and you grin  
We can't be together or showing a sign  
Because you're with your man but I'm on your mind  
Some say it's wrong to be so discrete  
The way we meet and go some place to eat  
I wine you and dine you and hold your hand  
Baby, your wish is indeed my command  
A wonderful time we have sitting and talking  
Or even down by the pier just walking  
Then we depart our little rendez-vous  
It's nice to have an undercover like you

[ CHORUS ]

Undercover lover  
Come into my life and brighten up my day  
(Undercover, my lover, I love you)  
Undercover lover  
Come into my life and chase my fears away  
(Undercover, my lover, I love you)

[ VERSE 2: King Sun ]

When you need someone close you can talk to  
Then you call me, you just ought to  
Know I like listening to you and your speaking  
Half original, lovely Puerto-Rican  
Just the type of girl I like keeping  
I wonder if I say your name while I'm sleeping  
That could cause a great bit of fight  
So I stay awake and think about you at night

Sometimes I think my girl suspects something  
She tries to diss you by calling you a dumb thing  
I speak on your behalf, play it off and laugh  
Go out to the phone booth and call you from the ave.

Arrange it to see you, hold you and love you  
A dozen of roses shows I'm thinking of you  
Don't get me wrong, I love her too  
But it's nice to have an undercover like you

[ CHORUS ]

( \*phone conversation\* )  
(Hello?)  
Yeah, what's happenin, sweetness  
(Hello)  
I'ma try to get you a little later, right?  
(Okay)  
Alright  
I love you  
(I love you too, Sun)

[ VERSE 3: King Sun ]

The day goes by when I need to rely  
On a dissolute relationship that you and I  
Started as friends, extended and then  
A kiss led to more, we decided to pretend  
Nothing is wrong cause there's nothing between us  
People started rumors from the time they've seen us  
Holding hands, smiling at each other  
Even though we pass for sister and brother  
A certain part of you belongs to me  
The part that is soft, tender and sweet  
That starts from the beautiful hair on your head  
On down to the pretty little toes on your feet  
Love me tender, female agenda  
To your secret love I surrender  
If there's one thing she's yet to discover  
It's you, my beautiful undercover lover

Hey love  
It might be wrong, what we doing and everything  
But what they don't know won't hurt em at all

[ CHORUS ]

( \*phone conversation\* )  
Yeah baby  
Uhm, I can't you see you no more, the heat is on  
(But Sun, I left him for you  
You left him for me?)

You buggin out  
(It is your baby I'm carrying)  
My baby?  
Ah come on now, I ain't even tryina to hear that  
(Well, you better try to hear this:  
If I can't have you, nobody can)

...damn!
