I hear your words  
Camouflage  
Promise  
Obvious resolution  
Dejected mind  
Blunt judgement  
It will make the same trust  
You resign progress  
You keep your position to degenerate a strange  
Your deeds show that you can't select common choice  
For fucking you

I have seen a fucking foolish man  
Sadly no consideration, no deed  
It's all the same  
You are exactly the same as a clone  
Repeat the same mistake  
Selfish construction egomaniac  
Your pleasure was disturbing a stranger

Nothing saving way for me  
Nothing worthy or saving for me

Bring someone down of your base deed  
I have lost my hope by disallowing deeds  
You don't have too much  
Trust in your power to find out  
You are going to find a mere chance to stalk me  
Your web of lies  
Anyway you look it there's nowhere to run

Your web of lies  
It is getting to the point where you shall die  
With my hatred and your remorse  
You are caught in a trap  
Nobody can escape your web of lies
