Lonely days will come and go
Nothing new unless you're bold
Revolution no.19
Brand new wave of anger

Stain yourself with pumpkin pie
Liquid tattoo I got mine
Don't forget forgetfulness
Call it deconstruction

There is no room inside a box
There is no room inside
There is no room inside a box
There is no room inside

Way down in the deep depress
Colder than the coldest yes
We know about loneliness
Others to another

Just a place to run and hide
Just a place to free your mind
Just a place to break the chains
And find whatever matters

There is no room inside a box
There is no room inside
There is no room inside a box
There is no room inside

There is no room inside a box
There is no room inside
There is no room inside a box
There is no room inside

There is no room inside a box
There is no room inside
There is no room inside a box
There is no room inside
