I'm walking in a foreign winter breeze
Don't think of home too much
It may just bring me to my knees
And I'm watching people playing
In a place they call their home
And I can't remember when I ever
Felt so all alone

So far from home

If I have a dream in my life
I dream I'm with you
If I have a dream in my life for you

When I was young I knew just what I'd do
And so much more than that
Has come in sharing life with you
And I take another step in the
Direction I must go, and I feel the truth
Inside me it's the one thing that I know
I know, I know

If I have a dream in my life
I Dream it with you
If I have a dream in my life
I dream it will all fit together with you

I know this is the way it has to be
But it doesn't make it easier
I can't just pay a fee
That will make pain go away

So I accept it for another day
Our hope is deeper than the
Pain we often feel
So we take these steps together
As the hurt begins to heal
And we know it is for real
So we accept it for another day

And suddenly I don't have to run,
I see the place where dreams and life become one

And our paths run together trailing off in the sun

Yes I have a dream in my life
I dream it with you
Yes I have a dream in my life
And you dream it too

Yes I have a dream in my life
I'll live it with you
Yes I have a dream in my life
We both feel its true
