Freedom to have two mothers and all be friends
Freedom to terminate my fetus if it don't fit in
Freedom to kiss my brother right on the lips
Freedom to make my own concoction and take a sip
What a trip, blame it all on God

Freedom

Freedom to pay for a killer to have TV
Freedom to get elected and set my own salary
Freedom to go out and join the KKK
Freedom to get in trouble for everything that I say
What a day, blame it all on God

Freedom

Oh, say, can you see?

To scam everybody and make a buck
To use your credit card number and press my luck
Freedom cut down the forest, make new disease
Freedom to pour everything we got into the seas
Would you please blame it all on God, we can blame it
on God

Freedom

Freedom hail Hitler
Freedom hell, hail Geraldo

Oh, say, can you see
