

King's X "Higher Than God"

Visit "[Higher Than God](#)" on MotoLyrics.com

Once I felt inspired, everything was new
Thought I could do anything, especially with you

Cold as an icy stream, lighter than everything
I thought that we were higher than God

Once I thought you loved me, everything was true
Thought I found my answer, uhh
Thought it was in you

Cold as an icy stream, lighter than everything

I thought that we were higher than God

Castles and scars align
View of the tape head crime
I thought that we were higher than God
