Monster's gone away
Rocket ships delay
Guess they're all afraid
Heard it's gonna rain
Julia...
You don't have to cry
I'll do what you want me to...
Your superman

Forward never straight
Concentrate...relate
Easy to be fake
Blame it on my faith

Julia...
You don't have to cry
I'll do what you want me to...
Your superman

Who would have figured
She'd not pull the trigger
A light in the sky
Was a spark of delight
Crimson and clover
Send rover right over
To dance on my table
And stay up all night

Julia...
You don't have to cry
I'll do what you want me to...
Your superman
