I am who I am and I don't doubt it
You are who you are, it's what I know
Hearing all the words of many others
Does it make a difference when they're wrong?

Here we are somewhere in the circle
Dancing madly backwards 'round about
And who's to blame for little ones who stumble?
Who can throw the stone and knock them out?

There's trouble in the kingdom
Send a message to the king
(Message)

There's trouble in the kingdom
Send a message to the king, send a
(Message)

I heard the voice whisper in the thunder
I believe His words but who am I?
Hearing all the words of many others
Standing before Pharisees and scribes

Oh, here we are somewhere in the circle
Dancing madly backwards 'round about
And who's to blame for little ones who stumble?
Who can throw the stone and knock them out?

There's trouble in the kingdom
Send a message to the king
(Message)

There's trouble in the kingdom
Send a message to the king
(Message)

Send a
(Message)
Send a message, yeah
(Message)

Ooh, yeah

(Message)
Send a message, yeah
(Message)
Whoa

Here we are somewhere in the circle
Dancing madly backwards 'round about
And who's to blame for little ones who stumble?
And who can throw the stone and knock them out?

There's trouble in the kingdom
Send a message to the king
(Message)

There is trouble in the kingdom
Send a message to the king
(Message)

Send a
(Message)
Send a message
(Message)

Shout it from the rooftop, yeah
(Message)
Oh, the way they can
(Message)
Ohh, yeah
