She's got everything I need and more to live my life  
Ever thought to think of never survive  
The circle has been broken it's always been this way  
The funny farm, out of luck, we're on our way

The big picture, I wanna see  
I know you're listening so let it be  
The big picture, I wanna see  
I know you're listening so let it be

Golden rules and Sunday schools where it was my way  
A Rock 'n' Roll, a spiritual, give me any day, yeah  
The final chapter, the morning after blowing in the wind  
(Yeah)  
Taking away the other day and time stands us still

The big picture, I wanna see  
I know you're listening so let it be  
The big picture, I wanna see  
I know you're listening so let it be  
(Aaah)

The big picture, I wanna see  
I know you're listening so let it be  
The big picture I, I wanna see...  
I know you're listening so let it be

The big picture, I wanna see  
I know you're listening so let it be  
Oh the big picture, oh big picture, hmmm I wanna see  
Hmmm, the big picture, I, I, I, I want to see  
Oh I, yeah
